

REPORT OF THE OFFICE OF THE OFF CAMPUS AFFAIRS MINISTRY

BADAZA PROTUS,14/U/3832/EVE,214002368

29/05/2016

1 INTRODUCTION

As the off campus ministry we are coordinate residents of the university hall with the non-residents in such a way that we organise get together parties or activities such as beach bash, drink up parties, solidarity carnival for both non-residents. This will bring non-residents closer to hall .and then sensitizing non-residents about activities taking place in their hall further As to the above mentioned challenges and activities we need the support from all the members of the scr because the activities need a lot of efforts of which it cant be done with a few people and also assisting all non-residents with intensions of joining university hall as residents

2 ACTIVITIES

So far with the off campus ministry we helped non-residents on how to join hall that is by telling t apply through the warden to the dean of students Makerere University. And we have been getting contacts of the non-residents in campus and then let them know about what is happening in the hall for example for the porridge nights we had at garden courts and it was done through the social platforms and through sms and calls We had a beach bash which helped to reunite and strengthen our solidarity (uncourts) it was held at aero beach which also helped to bring together students plus the girls of garden courts thus helped to strengthen the solidarity

3 PLANNED ACTIVITIES

As the off campus office we planned to have activities like fifa tournaments for the students which will be well publicised throughout the campus so that the non-residents can be aware of what is happening and another activity is the solidarity carnivals where be we have started looking for the sponsors for example club, radio city which so far have given us the right hand

4 CHALLENGES

In our ministry we have had many challenges especially organising get together parties because of the tests during the semester and some annual occasion for example the finalist dinner, porridge night, bull roasting for garden courts which were happening on different occasion we managed to organise a few events so we have planned to have other events next year Then we had another challenge of publicity where the minister incurred his own money for publicity for example calling people (non-resident) and informing them about what is happening in hall and what is taking place in the campus We had another challenge where my meetings with committee had to be facilitated by the ministers funds and also informing the committee members to turn up for the meeting and also the minister had to incur his own costs to have the committee members to come for the meetings

5 CONCLUSION

As to the above mentioned challenges and activities we need the support from all the members of the senior common room (scr) because the activities need a lot of efforts of which it cant be done with a few people
